Underlining (Italics)

15a. Use underlining (italics) for titles and subtitles of books, plays, periodicals, films, television series, works of art, and long musical works.

When you write the title of a book, a play, a movie, a magazine, a newspaper, or some other major creative work, underline the entire title. A typesetter would set underlined words in italics, letters that lean to the right. If you use a computer, you can probably set these titles in italics yourself. Do not underline titles that you have set in italics. Use underlining or italics, but not both.
